

PhD Fellowship 2021

We are seeking PhD candidates for a fully funded four year FPI (*Formación de Personal investigador*) fellowship associated with the project entitled: "New tools for asymmetric catalysis and chemical biology" Ref: PID2020-119535RB-I00. Funded by the MICINN (Ministerio Español de Ciencia y Tecnología). The PhD studies will be conducted at the URSA (Unitat de Recerca en Química Asimètrica) labs located at the Institute for Research in Biomedicine (IRB Barcelona). The group is led by the professors Antoni Riera and Xavier Verdaguer.

Research Topic: Asymmetric metal catalysis for the synthesis of bioactive compounds.

Supervisor: Dr. Xavier Verdaguer.

Website: <https://www.irbbarcelona.org/en/research/research-unit-on-asymmetric-synthesis>

Institution: IRB Barcelona (Parc Científic de Barcelona).

Selection Criteria: Master's degree in Organic Chemistry or Pharmacy Degree. Experience in organic synthesis and/or organometallic chemistry is desirable. Good oral and written communication skills in English.

Starting Date: June 2022

If you are interested in the position please send a CV to Xavier Verdaguer (xavier.verdaguer@irbbarcelona.org) before October 31th, 2021.
